

# FOZLE RABBI

## Senior Software Engineer (Mobile Team Lead)

Uttarpar, Khilkhet, Dhaka-1229

Mobile: +88 01796710416 | Email: fozlerabbi.on@gmail.com | GitHub: [fozlerabbi321](#) | LinkedIn: [Fozle Rabbi](#) |

Website: [Fozle Rabbi](#)

## PROFESSIONAL SUMMARY

Senior Software Engineer with over 5.5 years of experience specializing in building high-performance, scalable mobile applications and robust backend systems. Expert in Flutter and Android Native, with a proven track record of scaling platforms to 1M+ downloads. Beyond mobile expertise, I am a proficient Full-Stack Developer skilled in NestJS, Laravel, and Spring Boot, specializing in building secure, high-concurrency architectures. A pioneer in integrating Agentic AI & RAG workflows to optimize development and create intelligent user experiences. Deeply committed to Clean Architecture, SOLID principles, and high-quality code standards.

## TECHNICAL SKILLS

- **Framework & Language:** Flutter, Dart, Java, Kotlin, Native Android, React Native, Laravel (v12), SpringBoot, NestJS with Fastify.
- **Architecture & State Management:** Clean Architecture, BLoC, Riverpod, GetX, Provider, MVC, MVVM, SOLID Principles, Singleton Pattern, TDD and DDD.
- **AI & Modern Tools:** Agentic AI, Docker, GitHub Actions (CI/CD), Nginx, Linux Server Management (Ubuntu), RAG, LLM, Coder Server for remote environment.
- **Databases & Storage:** Firebase, Hive, SQLite, PostgreSQL, MySQL and Redis
- **Services & Features:** Stripe, bKash, SSLCommerz, In-App Purchases, RevenueCat, Video Streaming (HLS/DASH and others), Google Maps Tracking, WebSocket, Video/Audio Call, Realtime Chat, , FCM, BigQuery (Google Analytics).

## WORK EXPERIENCE

Senior Software Engineer | [Kahf Yazılım A.Ş.](#) (*Augmented Resource via Qtec*) | Feb 2024 – Present

- Leading the Mahfil ecosystem, scaling the platform to over **1M+ downloads**.
- Directing a team of 4 for the Mahfil V3 Rewrite, utilizing **70 to 80% Agentic AI workflow** to launch a full backend, web, and studio panel in 2.5 months (Start May 2025).
- Developed high-performance video streaming with HLS, MP4, and DASH support, including background play and mini-player features.
- Key Contributor to Kahf's Mahfil App (Flutter), Kahf Ads SDK, and the New Mahfil Platform (Rewrite).

Senior Software Engineer | [Qtec Solution Limited](#) | Oct 2022 – Present

- Integrated Firebase services, REST APIs, Google Maps, and video playback with optimized performance.
- Developed video streaming features with custom ads, HLS, MP4 support, and personalized content delivery.
- Implemented and managed multiple payment gateways including Stripe, SSLCommerz, and bKash.
- Automated CI/CD pipelines using GitHub Actions, and released and maintained multiple apps on Play Store and App Store.

- Key contributor to Kahf's Mahfil App and Kahf Ads SDK.

**Mobile App Developer** | [Akaar IT Ltd](#) | Apr 2021 – Sep 2022

- Delivered **15+ mobile applications** in the School Management and E-commerce domains.
- Reduced critical bug backlogs by **15%** through proactive testing and robust error handling.

**Android App Developer** | [Zamzam Digital Limited](#) | Oct 2020 – Mar 2021

- Developed e-commerce mobile applications using Java and Kotlin.
- Achieved a **20% reduction** in bug reports through improved testing protocols.

## PROJECT PORTFOLIO

Bitcoin Canvas | Bitcoin AI Assistant | Flutter, SpringBoot | [Google Play](#), [Appstore](#)

- Served as Project Lead, overseeing strategic planning, architecture, and technical execution of the Bitcoin Canvas ecosystem.
- Architected a high-performance cross-platform Flutter app using Feature-First Clean Architecture and SOLID principles.
- Spearheaded development of "Penny Chat," an advanced AI-driven chat system integrated within the mobile experience.
- Engineered a secure Spring Boot backend to handle high-concurrency data processing and real-time synchronization.
- Implemented resilient Hive storage, real-time activity tracking, and automated force-update mechanisms.
- **Stack:** Flutter, Dart, Spring Boot, Java/Kotlin, PostgreSQL, Hive, BLoC/Riverpod, RESTful APIs.

[Mahfil](#) | Video Sharing Platform | Flutter | [Google Play](#), [Appstore](#)

- Developed the application completely from scratch as the Lead Developer, independently owning the codebase and scaling it to 1M+ installs on Google Play
- Engineered the core mobile architecture, optimized heavy video rendering pipelines, implemented localized religious utility tools, and managed the absolute end-to-end feature delivery.
- Key Features: HLS Video + Shorts streaming, background feed auto-play, offline video playback, secure multi-provider authentication (Firebase Phone, Google, Apple, Kahf ID), smart search, and advanced Hive-based local caching.
- Tech Stack: Flutter, Dart, BLoC, Hive, Firebase Auth, REST APIs.

[Mahfil-v3](#) (Ecosystem Rewrite) | React Native

- Impact: Team of 4 accelerated a legacy 3.5-year roadmap into a 2.5-month launch (New Backend, Web, Studio Panel, and App) following a web-first deployment strategy. Implemented 70-80% of the codebase using Agentic AI assistance.
- Core Contribution: Spearheaded the entire mobile app side; converted Figma designs to React Native, managed full iOS/Android production builds, and fixed all native library compatibility issues. Contributed directly to backend APIs to match the phased rollout.

- I'm developed Cross-platform Video + Shorts streaming, feed auto-play, Picture-in-Picture (PiP), popup play, custom ads and premium subscriptions.
- Stack: React Native, TypeScript, Expo, TanStack Query, Backend APIs.

#### [Snacky](#) | Multi-Outlet POS & Management System | Laravel, React

- Developed a high-performance retail ecosystem with a multi-outlet architecture featuring independent pricing and inventory tracking.
- Implemented POS, products management, and complex offer and coupon system, investment tracking, Audits logs, Customers Analytics, Expense and RBAC Management.
- Built a robust Laravel 12 backend with a centralized API to manage sales
- Engineered a responsive Admin Panel using React (Vite) and TypeScript, utilizing TanStack Query for efficient data synchronization.
- Managed end-to-end infrastructure, including database design and high-availability server deployment.

#### [SupplyLine](#) | Retailer & Sales Rep App | Flutter

- Clean code, Firebase for push notifications, a scalable BloC and solid design pattern
- Optimized performance with BloC State Management and Dependency Injection
- Google Maps, secure local data storage with Hive, Firebase
- Analytics, Crashlytics, Django Rest API integration and Support for Bar, QR code, and Bluetooth printing.

#### [Chardike](#) | E-commerce | Flutter

- Clean code, MVC, Firebase for push notifications,
- Optimized performance with GetX StateManagement and Dependency Injection
- Secure local data storage with Hive, Firebase Analytics, Crashlytics, Dynamic Link, SSLCommerz and Django Rest API integration

#### [Woogoods](#) | E-commerce | Flutter, Wordpress

- Clean code, Firebase for push notifications, scalable MVC design pattern
- Optimized performance with GetX State Management and
- Dependency Injection, intuitive navigation using GetX
- Secure local data storage with SQLite, and global accessibility through RTL-supported localization
- Seamlessly integrate WordPress and WooCommerce REST APIs for dynamic content.

#### [Offerify](#) | [Offer Discovery Platform](#) | NestJs, React Native

- Developed a full-stack platform for location-based offers discovery platform
- Implemented vendor/shop management, complex offer workflows (discounts, coupons, vouchers), maps view.
- Handled production deployment and environment setup using Docker and GitHub Actions for a scalable microservices architecture.
- **Stack:** NestJS, TypeScript, PostgreSQL + PostGIS, TypeORM, Redis, Typesense, React Native, Fastify, Docker.

#### [Bongo Source](#) | B2B Retailer & SR App | Flutter

- Developed key modules for Customers, Buyers, and Sale Managers to facilitate B2B product and order management.
- Utilized Riverpod and Singleton patterns within a Clean Architecture to ensure code maintainability.
- **Stack:** Flutter, Riverpod, Clean Architecture (Feature-First), Hive, REST APIs, Push Notifications.

#### Kahf Ads Flutter SDK | Private Ads Package

- **Key Features:** Built a cross-platform Ad SDK package. 4 Ad network add in one package (fallback model), Optimized API usage with caching and pagination, reducing load times.
- **Tech Stack:** Flutter, Dart, Riverpod, Unit Testing, REST API, Google Ad Manager, EPOM Ad, Kahf Own Ad Server and Kahf In House Ad.

#### [Brain Exercise](#) | Puzzle & IQ Test Mobile Application | Flutter

- Built cognitive game modules including Math Puzzles (with text-input workouts), Slide Puzzles, IQ visual reasoning tests, a 60-level Color Blind perception matrix (up to 9×9 grids), Visual Brain decoding, and sequence Pattern Challenges. Integrated full Google AdMob monetization (Banner, Interstitial, and Rewarded ads), offline playability, and dynamic responsive layouts for all devices.
- **Stack:** Flutter, Dart, Riverpod/Notifier, Hive Local Storage, Google AdMob SDK, Feature-first Clean Architecture.

#### Trip Mate | Full Stack Travel Management (University Project) | Laravel, Flutter

- Designed and developed a comprehensive travel system, overseeing both frontend and backend lifecycles.
- Built a feature-rich Flutter application with a premium UI/UX and a Laravel-based RESTful API backend.
- Deployed the system on Linux (Ubuntu) servers using Nginx for optimal performance.

## EDUCATION

- **B.Sc. in Computer Science and Engineering** | Dhaka International University | 2022 – 2025
- **Diploma in Computer Engineering** | Kurigram Polytechnic Institute | 2016 – 2020

## AWARDS & ACHIEVEMENTS

- **Top 5 Winner:** QSL AI Hackathon 2025 (Achieved with a 100% Agentic AI workflow).
- **Delivery Excellence:** Successfully launched and maintained over 30+ commercial applications into production within 5 years.

## LANGUAGES & INTERESTS

- **Languages:** English, Bangla
- **Interests:** Coding, Reading books, Travel, and Watching Movies
